

LEVEL III - INTERMEDIATE

This level introduces a more systematic grammatical appraisal of the linguistic phenomena studied over the first two levels. Without losing touch with the oral and written language of communication in current use, students' knowledge of the vocabulary and the morphology of Italian is enriched.

At the same time the close relationship that exists between language and culture is highlighted by programming lessons so as to approach literature, society and the history of art from a language point of view.

The program consists of:

- Italian language: 9hrs/wk
- Language practice: 6hrs/wk
- Introduction to Italian civilization: 6hrs/wk
- Phonetics (classroom and laboratory): 1hr/wk
